

<u>Curriculum Overview for Year 2 pupils – Term 2</u>

be reading and writing fairy tales - we will be focusing on sentence punctuation, characters and settings. We will also be looking at the common themes and characters, eg, witches and fairies; repeated phrases; settings that are in the woods, cottage, or palace. The children will learn to write the school daily. Maths In Maths this term we will start to focus on the two, ten and five times table. The children will learn how to partition two digit numbers to add them and solve addition problems involving money. They will be learning to find coins for different amounts and learn how to give the least amount of coins to pay for an item. The children will learn to name, describe and compare 3d shapes according to their properties. Science The children will explain the basic stages in a life cycle for animals. They will discover that there are different types of animals and animals can be classified by their features. The children will be naming the world's oceans and locating them on a map. They will know the continents of the world and where to find them. They will also look at time zones and how there are shorter daylight hours in the Arcit and Antarctica. History The children will learn all about Guy Fawkes and how he plotted to blow up the Houses of Parliament. The children will explore different sources of information and use them to answer hopscotch questions. Computing The children will learn what an algorithm is (a set of instructions). The children will predict the outcome of a sequence, design, make and test a map then learn to debug a sequence. The children will give their opinions about a Van Gogh piece of artwork. They will sketch features seen at night time and use these to create their own night time picture through printing. The children will be looking at different types of puppets. They will then design their own hand puppet and use a needle and thread to sew their puppet together. PE Tag Rugby — The children will be learning what the term 'duration' means. They will understand how to	English	This term we will start the term by looking at different shape poe	ms and write our own. Then we will		
reading books or brought to school daily. Maths In Maths this term we will start to focus on the two, ten and five times table. The children will learn how to partition two digit numbers to add them and solve addition problems involving money. They will be learning to find coins for different amounts and learn how to give the least amount of coins to pay for an item. The children will learn to name, describe and compare 3d shapes according to their properties. Science The children will explain the basic needs for what animals med to survive. They will discover that there are different types of animals and animals can be classified by their features. The children will be aning the world's oceans and locating them on a map. They will know the continents of the world and where to find them. They will also look at time zones and how there are shorter daylight hours in the Arctic and Antarctica. History The children will learn all about Guy Fawkes and how there are shorter daylight hours in the Arctic and Antarctica. The children will learn what an algorithm is (a set of instructions). The children will ilearn what an algorithm is (a set of instructions). The children will give oral instructions to a 'human robot' then type instructions into a programmable toy to make it move along a set route. They will predict the outcome of a sequence, design, make and test a map then learn to debug a sequence. The children will give their opinions about a Van Gogh piece of artwork. They will sketch features seen at night time and use these to create their own night time picture through printing. The children will be looking at different types of puppets. They will then design their own hand puppet and use a needle and thread to sew their puppet together. PE Tag Rugby — The children will be taught to pass a rugby ball sideways and backwards. They will be taught to understand how a try is scored in Tag Rugby and to develop a range of defensive and attack strategies used in Tag Rugby. In PSHE the children will learn how to	Please ensure	be reading and writing fairy tales - we will be focusing on sentence	e punctuation, characters and
