

# Hawkinge Primary School

## Phonics Policy

At Hawkinge Primary School, phonics is taught systematically and discretely every day. We ensure progression, continuity and challenge and teach to children's individual needs. We follow the Anima Phonics programme and are passionate about providing each child with high quality phonics teaching and learning.

### Organisation

- Children in Reception will be taught in their class groups, any exceptions to this will be agreed by class teacher, phonics leader and Head Teacher
- Children in Years 1 and 2 will be set by ability for their phonics lessons, which will take place immediately after break time every day. Children will normally be set at least four ways.
- Lessons will be 20 minutes each day (may be slightly longer in Reception).

### Expectations

- Phases 1-5a will be taught by the end of the Reception year
- Phases 5b, 5c and 6a will be taught throughout Year 1
- Phase 6b, 6c and 6d will be taught throughout Year 2
- This is a fluid overview as our priority is to meet each learner's individual needs and so not every child will progress at this rate. One of the benefits of setting is that children may move between groups as their needs dictate.

### Planning

- Staff will use the plans provided by Anima Phonics. This will follow the format of revisit, teach, practice and apply.

### Assessment

- Teachers will assess the children's learning in an assessment week at the end of each phase.
- Using this information, teachers will then decide how to move each child's learning forward. This could be moving on to the next phase, providing additional intervention or considering a move in sets.
- Phonics sets are regularly reviewed by teachers, English leader and Head Teacher, to ensure that every child's needs are being met

### Intervention

- Teachers will act swiftly to identify any children who need additional support. TAs may lead phonics intervention groups, so that children keep up rather than need to catch up at a later date
- TAs may lead intervention groups for children in KS2 who are not yet confident with and applying the sounds from Phases 2-6 of Anima Phonics
- Any intervention groups should run **in addition to** the phonics (or spelling for KS2) teaching and not instead of
